

April 20, 1999

Dear Dr. Sundlof:

Please seek to ban antibiotics used to promote growth in farm animals. Not only farm animals are getting bigger and bigger, people are too! Strange things are happening with people, no doubt some of them are due to drugs given to the food animals we eat. So, I hope you will let the animals grow as they are intended, and we then may grow as we are intended. YES!

Thank you, *Susan Ruth Wilder*  
Sincerely, Susan Ruth Wilder
